EDUCATION

- 10.2018 - now **Białystok University of Technology**
Faculty of Computer Science, Information Technology, 3rd degree studies (doctoral)
- An Award for the Best Student granted by Białystok University of Technology Rector in academic year 2018/2019.
 - An Award for the Best PhD Student granted by Białystok University of Technology Rector in academic year 2019/2020.
 - Białystok University of Technology Rector scholarship for the best PhD students in academic years 2018/2019, 2019/2020 and 2020/2021.
 - Doctoral thesis opened on 10.01.2020; Thesis topic: "Machine Learning procedures in multimodal biometrics system using finger -print, -vein and -geometry".
- 02.2017 – 06.2018 **Białystok University of Technology**
Faculty of Computer Science, Information Technology, 2nd degree studies (masters) – degree: M.Sc. B.Eng. – Result: 5.5 (Excellent)
Specialization: Software Engineering
- Chairman of Biometrics and Signal Analysis / Processing Students Research Group over the period 2017 – 2018.
 - Białystok University of Technology Rector scholarship for the best students in academic years: 2016/2017 and 2017/2018.
 - Polish Minister of Science and Higher Education award for scientific work in academic year 2017/2018.
- 10.2013 – 02.2017 **Białystok University of Technology**
Faculty of Computer Science, Information Technology, 1st degree studies (engineering) – degree: B.Eng. – Result: 5.5 (Excellent)
- Chairman of Biometrics and Signal Analysis / Processing Students Research Group over the period 2015 – 2017.
 - Białystok University of Technology Rector scholarship for the best students in academic years: 2014/2015, 2015/2016, 2016/2017.
 - Faculty of Computer Science Council member in academic year 2016/2017 (one semester).
 - Faculty of Computer Science Scholarship Commission member in academic years: 2014/2015, 2015/2016.
 - Faculty of Computer Science Quality of Education Commission member in academic year 2015/2016.
- 09.2010 – 06.2013 **I-st Adam Mickiewicz High School in Białystok**
Specialization: Mathematics, Information Technology and Physics

PROFESSIONAL EXPERIENCE

- 11.2022 – 05.2024 **Łukasiewicz – Poznań Institute of Technology**
Position: Senior Researcher for Artificial Intelligence Developer (11.2022 – 12.2023), Head of Artificial Intelligence Division (01.2024 – 05.2024)

- Implementation of different web applications with Fast API, Elastic Search and Angular
- Implementation of Computer Vision-based solutions. Analysis of diversified types of data – also medical images (e.g., cardiology images and retina color images).
- Participation in research grants – Horizon Europe, NCBiR and Erasmus+
- Preparation of grant proposals (Horizon Europe, NCN, PARP and NCBiR)
- The general topic of the research conducted at that position is related to Computer Vision and Artificial Intelligence. I am responsible for preparation of the publications based on the obtained results. My responsibilities also include planning of the experiments (with usage of Machine Learning and AI) as well as preparation of the ready-to-deploy models (managed with MLFlow).

03.2022 – 12.2022

Sano Centre for Computational Medicine – International Research Foundation

Position: Scientific Software Engineer

- Implementation of diversified computer vision and artificial intelligence algorithms. Design and implementation of the simulation models. Working with medical data – both 2D and 3D.
- Preparation of the seminars. Analysis of the recent knowledge state based on diversified research databases.
- Participation in the conferences and research seminars.

02.2022 – 10.2022

AGH University of Science and Technology

Faculty of Physics and Applied Computer Science

Position: Lecturer

- Conducting laboratory classes: Measurement Data Analysis, Object programming, Introduction to software development, Object Programming 2, Large Scale Computing, Parallel Algorithms

12.2021 – 02.2022

Wroclaw University of Science and Technology

Faculty of Computer Science and Management

Position: Junior Researcher in CLARIN-PL project

- Analysis and implementation of the models based on Graph Neural Networks (GNN) and Graph Convolutional Neural Networks (GCN) within long texts in Polish and English.

03.2021 – 09.2022

Warsaw University of Technology

Faculty of Electronics and Information Technology

Position: Neural Networks Engineer (03.2021 – 01.2022), Research Assistant (02.2022 – 09.2022)

- Implementation and testing of diversified neural networks models for specific features detection of the observed objects. Participation in the project funded by Polish National Centre for Research and Development (NCBiR).
- Conducting laboratory classes (Introduction to Artificial Intelligence, Efficient way to software design) and participation in the research.
- Supervision of B.Sc. Eng. Theses – both in Polish and English

01.2021 – 10.2022

SoftServe Ltd.

Position: Research Engineer

- Participation in the Horizon 2020 European Union project – “TOUCHLESS.AI”. Working under evaluation of the emotions and the ways to transfer them in the digital world (also it relates to human touch).
- State of the art analysis and implementation of diversified solutions related to blood oxygenation contactless evaluation based on human face image.
- Participation in preparation of research papers – send to journals from JCR list and to world-class conferences.

07.2020 – 10.2021

Fuero Games Ltd.

Position: Machine Learning Engineer

	<ul style="list-style-type: none"> • Analysis and implementation of diversified algorithms connected with image processing for object detection and its segmentation. For this aim both Machine Learning (ML) and Deep Learning (DL) were used.
01.2020 – 10.2021 11.2021 – 03.2022	Nextsell Ltd. <i>Position: Scientific Leader</i> <ul style="list-style-type: none"> • Analysis and implementation of diversified intelligent algorithms connected with automatic speech recognition (ASR) and text to speech generation (TTS) with computer resources and computing power.
01.2020 – 09.2021	BikeHud Ltd. <i>Position: Chief Executive Officer (CEO)</i> <ul style="list-style-type: none"> • Daily company management and coordination of all activities in Hub of Talents 2 project (BikeHud is a participant of this project whilst Białystok Science and Technology Park is coordinator). • Analysis and implementation of the algorithms connected with automatic video recognition and all objects visible in it.
10.2019 – 06.2021	Łomża State University of Applied Sciences <i>Position: Lecturer</i> <ul style="list-style-type: none"> • Conducting lectures as academic teacher: Programming Basics, Information Technology, IT Projects Management, Programming Technologies, Advanced Software Engineering, Computer Systems Security, Internet Applications Programming. • Conducting laboratory classes as academic teacher: Information Technology, Object Programming, Programming Technologies, Advanced Software Engineering, Team Project II, Fundamentals of Databases, Internet Applications Programming.
09.2019 – 09.2020	Symmetra Ltd. <i>Position: Software Developer</i> <ul style="list-style-type: none"> • Working under web application with Python, Java Spring and Java Spring Boot frameworks. • Creation of applications frontend side with AngularJS, Angular 8, Angular 10. • Creation of documentation and automatic tests in Spring environment.

10.2017 – 06.2018	Białystok University of Technology Faculty of Computer Science, Department of Digital Media, and Computer Graphics <i>Position: Research Assistant (Intern)</i>

- Conducting laboratory classes as academic teacher: Principles of Biometrics, Signal Processing.
- Taking part in preparation of lectures in: Principles of Biometrics, Signal Processing.
- Taking part in seminars and consultations.
- Member of biomedical sensors group in project “Sensor system in vehicles to recognize the state after an accident with information transmission to the e-Call emergency desk” financed by Polish National Center for Research and Development (NCBiR).

05.2017 – 07.2018

Symmetra Ltd.

Position: Junior Software Developer

- Programming languages: Java, Python, C#.
- Frameworks: GWT, Vaadin, WPF, Angular 5, Java Spring, Django.
- Other solutions: Apache Solr and Scrappy.

07.2016 – 04.2017

Transition Technologies PSC

Position: Junior Java Developer

- Programming languages: Java, C#.
- Other solutions: PTC Windchill, PTC ThingWorx.
- Conducting laboratory classes and lectures - Internet of Things at Białystok University of Technology, Faculty of Computer Science – academic year: 2016/2017 (one semester).
- Software development methodologies and systems: Jira, SVN.

1.07 – 31.07.2015

Białystok University of Technology

Faculty of Computer Science, Laboratory of Technical Informatics

Position: Intern in Laboratory of Technical Informatics

- One-month intern.
- Development of biometrics identification and verification algorithms.
- Examination of different biometrics traits and possibilities to use them in human recognition process.
- Implementation and conducting experiments over own solutions and different modifications of existing algorithms.

TRAINING COURSES

8.07 – 17.07.2015

„Summer school on medical and biometrical image analysis with the optimization for cloud and parallel programming”

Organizer: Stanisław Staszic AGH University of Science and Technology in Cracow and Motorola Solutions Poland department in Cracow.

6.04.2016

„Mobile applications safety – Android Security Workshop”

Organizer: Białystok University of Technology and Samsung Poland department in Warsaw.

02.2018

“Basics of Biometrics and Telecare”

Organizer: Białystok University of Technology, Faculty of Computer Science and Motorola Solutions Poland department in Cracow.

RESEARCH PAPERS

- 1 16.09.2016 **„A Multimodal Biometric User Identification System Based on Keystroke Dynamics and Mouse Movements”**
Authors: Piotr Panasiuk, **Maciej Szymkowski**, Marcin Dąbrowski, Khalid Saeed
In: K. Saeed, W. Homenda (Eds.) – „Computer Information Systems and Industrial Management, 15th IFIP TC8 International Conference, CISIM 2016, Vilnius, Lithuania, September 14-16, 2016, Proceedings”

- 2 17.03.2017 **„Two-step Eye Diagnostic System Based on Retina Tomography and Optical Coherence Tomography”**
Authors: **Maciej Szymkowski**, Emil Saeed, Khalid Saeed
In: „The 4th International Doctoral Symposium on Applied Computation and Security Systems, ACSS 2017, Patna, India, March 17-19, 2017, Proceedings”

- 3 16.06.2017 **„A Multimodal Face and Fingerprint Recognition Biometrics System”**
Authors: **Maciej Szymkowski**, Khalid Saeed
In: K. Saeed, W. Homenda, R. Chaki – „Computer Information Systems and Industrial Management, 16th IFIP TC8 International Conference, CISIM 2017, Białystok, Poland, June 16-18, 2017, Proceedings”
